

Summer, 2019

Welcome to 5th Grade!

We hope that you are enjoying your summer vacation. School is right around the corner and we are excited to meet you! This summer we have enjoyed relaxing outside, reading, and enjoying time with our friends and families.

Fifth grade at Schofield is such an exciting year, filled with many new things to learn and discover. We will be studying ancient civilizations, learning about ecosystems, the properties of matter, and the relationship between the Earth and the Sun. We will become problem solvers investigating numbers, operations, and patterns in math and we will be reading a lot of fun and interesting new books!

The only thing that you should purchase before the first day of school is a small binder for homework and a pair of headphones or earbuds with a straight jack to use with your iPad. Also, if you have any old magazines and/or catalogs at home please bring them to school, as we will be using them for an important collage project.

For your first fifth grade assignment we would like you to create something that will teach your teachers and your classmates all about you! You can write a paragraph, draw a picture, make a video, create a collage, anything you would like. Include any information that you want us to know about you, your family, your culture and traditions, hobbies, likes, etc. Please bring your assignment with you on the first day of school and we will be presenting them to the class during the first week of school.

From,

The 5th Grade Team

Mrs. Arthurs

Ms. Bogan

Mr. Moretti

Mrs. Sullivan
