Parent Portal

PowerSchool is our student/family database.

Parents can use this tool to view their **student's emergency contacts**, manage their **School Messenger alert settings** and update **annual permissions** and **contact information** for their student. It is very important that you enter this information completely.

For more details and FAQ's, go to WPS homepage > Familes > Parent Portal Info.

Letters will be sent home to parent/guardians with their child's AccessIDs and Access passwords sometime in August.

The **PowerSchool Parent Portal** is open to parents to view and enter/update their annual permissions and contact information **through mid-September each year**. Please log in and enter/update as soon as you get this information. After this, it will be closed and any information will need to be entered by the school secretary, which is very time consuming. So please complete it yourself while it is open.

School Messenger

- Wellesley Public Schools uses the School Messenger System to alert families of weather closures and other time-sensitive information.

- In the event of an emergency, such as a weather-related school closing, each family will receive a phone call with information on the emergency. The number we use is the number we have on file in the office and in Power School.

- If your number changes at any time, please notify the office as soon as possible.

- **If your number has changed, you will not be able to receive the alerts.**
