Public Comments/Council Introductions	<p>Council members raised questions about the school by school staff vaccination rates. At the most recent school committee meeting the statistics below were reported. In checking in with our school nurse and hearing from the district Director of nursing, the belief is that these numbers do not accurately reflect the true vaccination rate at Schofield. There are many who have not reported their vaccination status. We also noted that there was confusion about those who reported data last year who were unaware that they needed to report it again this year. We have messaged to faculty to fill out the google form again. We hope this will get us to the most accurate percentages which our nurse believes is in at or around 95%.</p> <p><b>Staff Vaccination Rates Across the District:</b></p> <p>Central Office: 97%</p> <p>Upham: 86.9%</p> <p>Hunnewell: 85.4%</p> <p>Bates: 80.9%</p>
