## Wellesley Public Schools 2013 MCAS Results

School Committee Presentation
10/8/2013

## Guiding Questions

## 2013 MCAS Results

What percentages of our students achieved a proficient or advanced rating on the MCAS?
What is the level of student growth at WPS?
What can achievement and growth tell us about curriculum, instruction, and learning at WPS?

## 2013 District Results English Language Arts (ELA)

| Grade | \% Advanced \& Proficient | \% Needs Improvement | \% Warning |
| :---: | :---: | :---: | :---: |
| 10 | 99 | 0 | 1 |
| 8 | 94 | 3 | 3 |
| 7 | 91 | 7 | 2 |
| 6 | 88 | 9 | 2 |
| 5 | 85 | 11 | 4 |
| 4 | 79 | 16 | 5 |
| 3 | 81 | 17 | 2 |

Grades 3-5 are district results; Grades 6-10 are school results.

## English Language Arts History of \% Scored at Advanced \& Proficient Levels

Grades 3-5 are district results; Grades 6-10 are school results.

## MCAS Item Samples

## $4^{\text {th }}$ grade

## Higher than state average

## YOU ROCK!

by Elizabeth L. Ward

You're high up in the air, facing a rock cliff. One chalky hand grips a piece of the cliff; the other slips into a crack. You wear climbing shoes and brace both feet against the surface.
Too busy to look down at the ground, you call, "Slack!"
Your partner feeds you more rope and calls back, "Climb on!"
"Climbing!" you shout, and pull yourself up the final few inches to the top. Now it's time to look down and enjoy the goose bumps. You're a rock jock.
What is the main purpose of paragraphs 1-4?
A. to tell readers why they should climb
B. to show readers what climbing is like
C. to describe why it is difficult to climb
D. to explain how to stay safe while climbing

## $10^{\text {th }}$ grade

## Lower than state average

## from Ah-Choo!

by Jennifer Ackerman
But even households without kids are hardly bug-free. In sleuthing germs in 15 homes, Gerba discovered that the cleanest spot in the house-at least where bacteria are concerned-was the toilet seat; the dirtiest, the sponge or drain. "The cutting board was very bad," he writes. "There are 200 times more faecal coliforms [bacteria] on a cutting board than a toilet seat. From these data it would appear that the safest place to make a salad in the home seems to be on the top of the toilet seat."

## What is the main irony in paragraph 11?

A. Vegetables are dirtier than we realize.
B. Homes with no children contain bacteria.
C. Bacteria are not always present where we expect them to be.
D. People clean their bathrooms more
often than they clean their kitchens.

## \% of Students Achieving Advanced or Proficient in ELA by Subgroup

## Student Growth Percentiles (SGP) 2013 MCAS Results

To what degree are our students learning a year's worth of content in a year's time as measured by MCAS?
What can that tell us about teaching and learning at WPS?

## Student Growth Percentiles (SGP)

A measure of growth relative to a state-wide peer group with similar historical performance.

A student in the $60^{\text {th }}$ percentile for Grade 5 Math, showed stronger growth than $60 \%$ of students who had similar scores on the Grades 3 \& 4 assessments.

ELA \& Math only.
Subgroups reported only when $\mathrm{N}>=20$.

## Why Is SGP Important?

We believe the growth of EVERY student is an essential part of our mission.

When a student reaches "Advanced" or "Proficient" they are not done learning.

SGP gives us a look at how all students at all proficiency levels are growing.

SGP shows us progress in closing achievement gaps.

Growth tends to be more strongly correlated with the quality of instruction than attainment.

## Department of Elementary and Secondary Education Growth Percentile Ranges

| $<20^{\text {th }}$ Percentile | Very Low Growth |
| :--- | :--- |
| $20^{\text {th }}-40^{\text {th }}$ Percentile | Low Growth |
| $40^{\text {th }}-60^{\text {th }}$ Percentile | Typical Growth |
| $60^{\text {th }}-80^{\text {th }}$ Percentile | High Growth |
| $>80^{\text {th }}$ Percentile | Very High Growth |

## 2013 District Median SGP by Grade

$\left.\begin{array}{|l|c|c|c|c|}\hline & \text { ELA SCP } & \text { +/-CHANGE } & \text { Math SGP } & \text { +/-CHANGE } \\ \text { FROM 2012 }\end{array}\right)$
$\square$ High Growth (SGP of 60+)

- In Grades 4 \& 7, High Growth in both ELA and Math
- High Growth in All Grades in Math
- All other growth considered Typical Growth

## Progress and Performance Index (PPI) 2013 MCAS Results

How has the district fared on the state accountability system?
What can that tell us about curriculum, instruction, and learning at WPS?

## Progress and Performance Index (PPI)

Progress and Performance Index, or PPI, includes data on narrowing proficiency gaps, growth (SGP), MCAS participation, graduation rates and dropout rates.

## Measure <br> Overall Goal <br> Annual Target

| PPI | Schools/Districts must <br> narrow achievement gaps <br> by 50\% over a six-year <br> period (2011-2017) | Level 2: PPI < P P of low- |
| :---: | :---: | :---: |
|  | MCAS participation |  |

## Progress and Performance Index (PPI)

Cumulative PPI includes weighted annual PPI data for the most recent four years.

Schools and districts placed into Levels 1-5 based on the PPI of its lowest level school. For a district to be Level 1, all schools in the district must be show a PPI score of 75 .

Considers all students in a school and the high needs subgroup (low-income students, students with disabilities, ELL and former ELL students).

80\% of Massachusetts schools are classified Level 1 or Level 2.

## Framework for Accountability and Assistance Levels 1 \& 2

|  | Accountability |  |  | Assistance |
| :--- | :--- | :--- | :--- | :--- | :--- |

[^0]
## 2013 School PPI and Accountability Level

| School | PPI AII | PPI High Needs | Level | Notes |
| :---: | :---: | :---: | :---: | :---: |
| Bates | 100 | N/A | Level 1 | Meeting gap narrowing goals |
| Fiske | 96 | 69 | Level 2 | All: Met Target; High Needs: Did Not |
| Hardy | 86 | 86 | Level 1 | Meeting gap narrowing goals |
| Hunnewell | 82 | 79 | Level 1 | Meeting gap narrowing goals |
| Schofield | 73 | 73 | Level 2 | Math: Above Target; ELA: No Change |
| Sprague | 100 | 89 | Level 1 | Meeting gap narrowing goals |
| Upham | 83 | N/A | Level 1 | Meeting gap narrowing goals |
| WMS | 89 | 75 | Level 1 | Meeting gap narrowing goals |
| WHS | 100 | 85 | Level 1 | Meeting gap narrowing goals |

## 2012 District PPI and Accountability Level by Subgroups identified for gap reduction

| Student Group | PPI (1-100) | Progress Toward Target |
| :--- | :---: | :--- |
| All students | 95 | Met Target |
| High needs | 63 | Did Not Meet Target |
| Low income | 75 | Met Target |
| ELL and Former ELL | 77 | Met Target |
| Students w/ disabilities | 66 | Did Not Meet Target |
| Asian | 700 | Met Target |
| Afr. Amer./Black | 78 | Did Not Meet Target |
| Hispanic/Latino | 86 | Met Target |
| Multi-race, Non-Hisp./Lat. | 95 | Met Target |
| White |  |  |

## Implications

What interventions can we put in place? What have we already learned from MCAS? What are our next steps?

## District-Wide Interventions

- Response to Intervention (RTI) supports students
- Professional Learning Communities (PLCs) support teachers
- Math Instructional Coaches and Literacy Specialists provide onsite PD and coaching
- IEPs and 504 plans document needs of students with disabilities
- RETELL course trains teachers and administrators on ELL
- Title I (WHS, Fiske and Schofield) provides resources for highneeds students

## Content-based Interventions

## English Language Arts Support for Students

- Literacy specialists and reading interventionists at each school
- Diagnostic tools (AIMSweb, Fountas \& Pinnell at elementary level) \&
- . 5 Coordinator to guide coaching practices \& data use
- Reading specialists at middle and high school

## Mathematics Support for Students

- WHS: Math Plus course, Co-taught math classes
- WMS: Math Intervention Specialist, ALEKs
- ES: Numeracy Assessments, grades 1 \& 2
- . 5 Coordinator to guide coaching practices \& data use

## Science and Tech/Engineering (STE) Support for Students

- WMS summer science class for Boston \& Wellesley residents
- WHS Science labs

## Science Curriculum Alignment Update (case study)

What can our students' performance on the Science section of the MCAS tell us about our upcoming curriculum review work?

Wellestey PUBLIC SCHOOLS

## Elementary Science Curriculum

| K | Grade 1 | Grade 2 | Grade 3 | Grade 4 | Grade 5 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| -Investigations <br> - Water <br> - Habitats | -Investigations <br> - Birds <br> - Balance \& Weighing | - Sea Life <br> - Structures <br> - Plant Growth \& Development | - Fair Testing <br> - Insects <br> - Sound | - States of Matter <br> - Geology <br> - Water Cycle, Topography \& Climate | - Models \& Design <br> - Scale \& Magnification <br> - Light |

Topics not covered in WPS Elementary Science Curriculum

## Physical Science

Energy and energy transfer Magnetism
Forces and motion

## Earth Science

Soil and properties of soil
Moon Phases, solar system
Weather patterns (jet streams, etc.)

## Life Science

Acquired vs. inherited characteristics, animal behavior Frog development, consumers/ producers
Engineering
Simple machines

## WPS Student Performance by Curricular Standards

| WPS Students <br> Outscore State | $+\%$ | WPS Students <br> Underscore State | $-\%$ |
| :--- | :--- | :--- | :--- |
| Water Cycle $\left(4^{\text {th }}\right)$ | +6 | Earth's History | -1 |
| Weather $\left(4^{\text {th }}\right)$ | +7 | Soil | -5 |
| Properties of Objects $\&$ <br> Materials $\left(4^{\text {th }}\right)$ | +8 | Earth/Solar System | -3 |
| Sound Energy (3rd $)$ | +6 | Characteristics of Plants/ <br> Animals | -3 |
| States of Matter $\left(4^{\text {th }}\right)$ | +6 | Energy \& Living Things | -5 |
| Engineering Design $\left(5^{\text {th }}\right)$ | +5 | Forms of Energy | -3 |
| Materials \& Tools $\left(2^{\mathrm{nd}}\right)$ | +9 | Magnetic Energy | -9 |

## Middle School Science Curriculum, including Pilot units

| Grade Six | Grade Seven | Grade Eight |
| :--- | :--- | :--- |
| - Think Like a Scientist <br> - Electricity <br> - Chemistry and Heat |  | - Introductory Physical |
|  <br> Earth | PILOT Soil \& Erosion | PILOT Plate Tectonics |

## High School Science Curriculum

| Crade 9 | Crade 10 | Grade 11 | Grade 12 |
| :---: | :---: | :---: | :---: |
| - Astronomy <br> - Geology <br> - Oceanography <br> - Meteorology | - Chemistry | - Biology | - Physics (and electives) |
| PILOT Physics 9 |  |  |  |
| Proposed: Physics 9 | Chemistry | Biology | Electives |

## Next Steps: Align, Pilot, Implement

- Align curriculum with MA standards (including Common Core \& Next Generation Science Standards) in Science and Social Studies
- Implement Elementary School ELA maps developed in Spring 2013 that are aligned with Common Core
- Continue to implement math alignments
- Pilot Physics 9, MS Earth Science, Curriculum Development
- Development of common assessments
- Pilot new PARCC assessments
- Ongoing professional development in Mathematics and Science as well as in how data can inform teaching and learning

## Questions?
