## Accountability Basics

## Purpose <br> To monitor district success in meeting student needs

Use
Information to adjust instruction
Identify overlooked patterns of unmet needs

## Indicators

Achievement (MCAS score): ELA, Math, Science Growth (SGP from MCAS scores): ELA, Math
EL progress (ACCESS): English language proficiency
Completion: Graduation, engagement, dropout
Additional: Advanced coursework, chronic absenteeism

## Next Steps

1. Determine whether and how to adjust curriculum \& instruction

- Continue the general, positive course in ELA, math and science $\boldsymbol{A N D} . .$. consider specific adjustments:
- middle school ELA \& math
- elementary science
- Identify the standards that are strong or that need improvement
- Consider adjustments so students across the achievement range improve each year, particularly the lowest performing group

## Next Steps

2. Continue to investigate and address patterns of unmet needs (e.g. with Admin Council,
Academic Council, Achievement Gap Task Force, School Wellness Advisory Council)

- High Needs students
- African American/Black students
- Hispanic or Latino students

## Next Steps

3. Review data from other high priority areas in order to build a comprehensive picture of student/district outcomes

- Social and Emotional Learning Data: (e.g. Views on Climate and Learning Survey (VOCAL), Metrowest Adolescent Health Survey )
- Additional Measures of Achievement (e.g. PISA, SATs/ACTs, standards-based report cards)
- 21st Century Skills (e.g. EdLeader 21 \& PBL rubrics)

## Next Steps

## 4. Utilize data for strategic planning

- Teaching and learning resources (e.g. materials, professional development, staffing allocation)
- Teaching and learning structures to support learning for ALL students (e.g. schedules, differentiated instruction)
- 21st century tools for assessment (e.g. standards-based grading, mastery approach)
